Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

- (Currently amended) A nozzle array, especially for a ventilation system of a motor vehicle, comprising at least one nozzle (1) disposed at one end of a flow duct and a grille (2) disposed at the nozzle outlet, eharacterized in that wherein the grille (2) partially conceals the nozzle outlet.
- (Currently amended) The nozzle array as claimed in claim 1, eharacterized in that
 wherein the grille (2) conceals the nozzle outlet in a central region.
- (Currently amended) The nozzle array as claimed in one of the preceding claims, characterized in that claim 1, wherein a circumferential gap (4) is provided around the grille (2).
- (Currently amended) The nozzle array as claimed in one of the preceding claims, characterized in that claim 1, wherein the grille (2) is rectangular in configuration.
- (Currently amended) The nozzle array as claimed in one of the preceding claims; eharacterized in that claim 1, wherein the grille (2) is substantially nontransparent in configuration.
- (Currently amended) The nozzle array as claimed in one of the preceding claims,
 characterized in that claim 1, wherein the grille (2) is mesh-like in configuration.
- (Currently amended) The nozzle array as claimed in one of the preceding elaims, eharacterized in that claim 1, wherein the nozzle (1) is a swirl nozzle.

- (Currently amended) The nozzle array as claimed in one of the preceding claims, characterized in that claim 1, wherein two nozzles (1) are disposed side by side, which are jointly concealed by the grille (2).
- (Currently amended) The nozzle array as claimed in one of the preceding claims, eharacterized in that claim 1, wherein the grille (2), at the left and/or right ends, is semicircular in configuration.
- 10. (Currently amended) A ventilation system, especially for a motor vehicle, eharacterized by wherein at least one nozzle array (4) as claimed in one of elaims 1 to 9 claim 1.
